

“ANGOLA HERE WE COME !”

December 2022 – Luanda, Angola – [OG3S Mecanica Lda](#) and [COLD PAD](#) are proud to announce the signature of a strategic partnership agreement in Angola. The two companies will combine their skills and expertise to create synergies around cold work repair techniques. The primary focus will be structural repairs, maintenance and life extension of industrial assets in Angola.

[Cold Pad](#) provides durable composite bonding & fastening solutions to facilitate structural maintenance, retrofit & upgrade operations while reducing OPEX by eradicating associated costs. Cold Pad delivers unique, safe, painless, and non-intrusive cold works with limitless applications for all steel and concrete structures, in power generation, offshore wind turbines, shipping and Oil & Gas storage facilities. Cold Pad ambitions to lower the use of materials, manhours and energy from the construction phase to the life extension and decommissioning of structures.

[OG3S Mecanica Lda](#) is the leading Angolan mechanical engineering and Maintenance Company specialized in the maintenance and repair of a wide range of Industrial EQUIPMENT (Turbomachinery, Pumps, Marine Breakaway Couplings...) and STRUCTURES, including supply of relevant parts across marine, Oil & Gas, Power Generation and Industrial application.
