

SLR SYNERGIES PTE LTD

“A NEW PARTNERSHIP IN SINGAPORE AND CHINA !”

December 2022 – Singapore – [SLR](#) and COLD PAD are proud to announce the signature of a strategic partnership agreement in Singapore. The two companies will combine their skills and expertise to create synergies with cold work repair techniques looking after structural repair, maintenance and life extension of industrial assets .

This partnership particularly intends to create local capacities for the structural modifications inside shipyards. It typically includes the outfitting like pipe supports, handrails, instrumentation or ladders.

[Cold Pad](#) provides durable composite bonding & fastening solutions to facilitate structural maintenance, retrofit & upgrade operations while reducing OPEX by eradicating associated costs. Cold Pad delivers unique, safe, painless, and non-intrusive cold works with limitless applications for all steel and concrete structures, in power generation, offshore wind turbines, shipping and Oil & Gas storage facilities. Cold Pad ambitions to lower the use of materials, manhours and energy from the construction phase to the life extension and decommissioning of structures.

[SLR Synergies Pte Ltd](#) is a marine engineering firm based in Singapore specialize in providing full engineering services to the offshore marine industry, across all stages of vessel repair work. SLR provides projects from concept development and feasibility studies all the way through to vessel modifications or adaptations, as well as repairs and maintenance during operational phase.
